Special thanks to everyone who helped us this year: for all of our friends who dealt with us while we were trying to finish up the yearbook, to Jennie for always being there and believing in us, and to the staff for working extra hard to get this book done even after graduation was over. Also, thanks to everyone who handed in pictures to us to make this yearbook possible.

The 2001 Hilltop is Dedicated to:

George Ashline

Let me tell you a story:

Sophomore year in Linear Algebra, Nicole, Angela, and I were all studying for our exam the next day. We were still a bit confused about a topic, so at 9:00 at night we took a trip to George's office wondering whether he would still be there. But of course he was; he helped us answer our question and told us not to worry about the exam and that we would do fine. That's easy to say as a teacher but as a student sometimes that is very hard to believe. Here is a class that we worked really hard in just to pull off a decent grade and we wanted to do our best.

No matter what, George was there for us into the wee hours of the morning sometimes. We often wondered if he slept in his office but you could see him riding his bike onto campus the next day. Getting up for 8:15 classes is not easy as many of us knot. But math teachers are infamous for giving early morning classes; you learn better at that time supposedly. So we stumble into the classes still wanting a few more hours of sleep. George comes bounding in nice and wide-awake. His enthusiasm is so great that we wake up quickly in his classes bright and early in the morning as our brains try and awaken so we can actually understand the material.

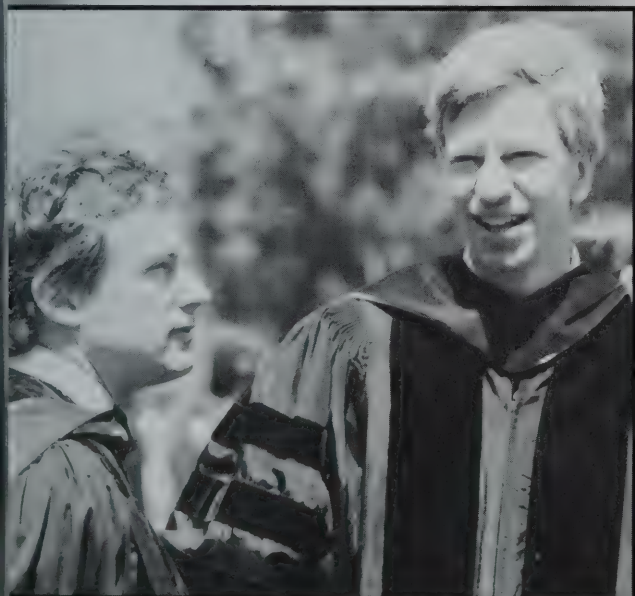

One thing that impresses me about George Ashline is his eagerness to help his students. The homework assignments he gives are challenging and thought provoking; yet in his own way they actually help us to understand the material a little bit more. They challenge us to think on our own so that he is not giving us the answers but making us do a little more work so we can have a better understanding of the subject.

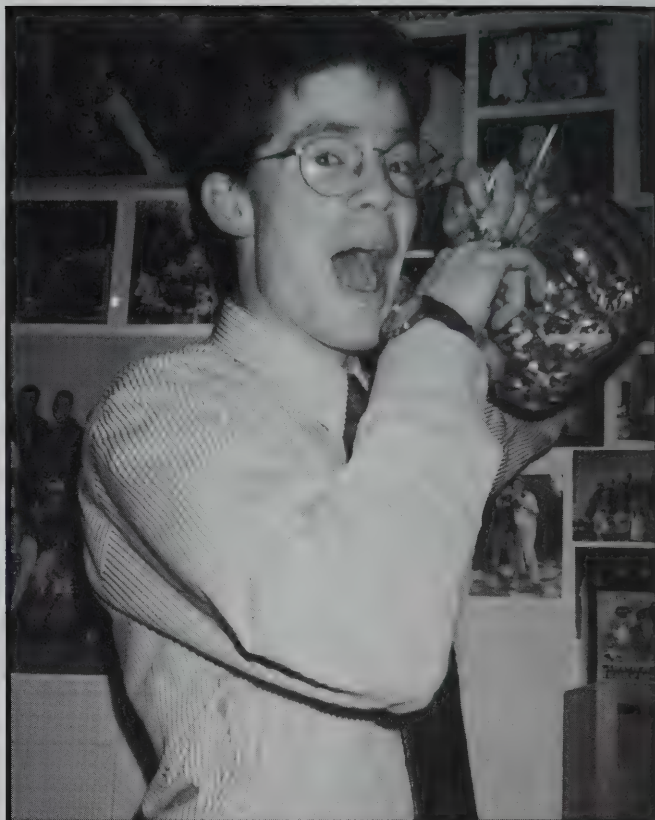

His office door is always open and sometimes as you walk by you can see George involved in his working helping his students. Walking into his office with a questions is rather simple and by the time you are done, you might actually grasp the concept a little bit more. If not, you go back with more questions until you eventually figure it out.

As time for another exam approaches, an extra class will be set up just for us. That was we can bring to him any lingering questions that we might have. If you don't bring any questions, he usually says I need some questions so I can help you understand what is confusing you. So he will name off all the topics for the test until somehow questions pop out and you get your questions answered.

This is just part of what George has done for our class and all of his students. So George thank you for all the help you have given your students over the past years. They are grateful for all you have done and for the caring attitude you bring towards your classes...

Thousands of starfish had been thrown up on shore by the tide. A man noticed the starfish dying and was throwing them back into the water. After watching the seemingly futile effort, the observer said, "There must be thousands of starfish on this beach. It would be impossible for you to get all of them. There are simply too many. You can't possibly save enough to make a difference." The young man smiled as he continued to pick up another starfish and toss it back into the ocean. **"It made a difference to that one," he replied.**

From your very first dimpled smile to this special moment, you have been a source of love and joy to us. Thanks for all the special memories and for those yet to come! Your dedication and hard work in all that you do makes us extremely proud and praises God as well. Do you remember the Xaverian Brothers motto, "In harmony small things grow"? Well you have grown into an incredible young woman! Always keep that smile, nurture the love in your heart, and reach out to others and you will continue to succeed in all you do. Congratulations sweetie on a job well done! Can't wait to visit you in the sunny south! :)

Now my little star, where did you go? I was not able to share my hopes or dreams with you...nor was I able to tell you my deepest and darkest secrets. You slipped away too soon.
